

EMPATH UNIT SET TO OPEN IN SUMMER

In summer of 2024, McNabb will open the first Emergency Psychiatric Assessment, Treatment and Healing Unit (EmPATH) unit in the State of Tennessee. The goal of the EmPATH unit is to quickly and compassionately stabilize patients experiencing a behavioral health crisis and provide comprehensive transition and discharge planning. The 23-hour unit provides individuals 18 years and older immediate access to psychiatry for evaluation and medication in a calm, supportive, trauma-informed, therapeutic environment. For a behavioral health crisis, EmPATH serves as an alternative to the traditional visit to an emergency department.

The program includes a walk-in triage/reception center, and a compassionate, multidisciplinary team comprised of psychiatrists, nurse practitioners, master’s level clinicians, nurses, mental health technicians and peer specialists provide constant monitoring and support.

“The McNabb Center is excited to provide a unique, alternative option to emergency departments for individuals who are experiencing a mental health crisis,” says Leann Human-Hilliard, executive vice president for the McNabb Center. “This program focuses on rapid access to treatment in an environment that, at the onset, is warm, inviting, calming and therapeutic. Services are delivered by a highly trained team of mental health professionals in a compassionate and caring manner.”

Developed by Dr. Scott Zeller, EmPATH units are able to deliver care in a different environment than traditional emergency departments across the country. The units offer quiet spaces, comfortable recliners and soothing décor to help patients relax and heal. Staff offer immediate treatment in a supportive and reassuring manner to help reduce patients’ agitation and build trust.

ELEVATE RECOVERY HIGH SCHOOL

VOLUNTEER SPOTLIGHT

FOUNDATION EVENTS

SPIRIT AWARD DINNER

The Helen Ross McNabb Foundation proudly announces Randy & Jenny Boyd as the honorees for the 2024 Spirit Award Dinner! This prestigious event, established in 2004, recognizes individuals who embody the McNabb Center's spirit of service and dedication to improving lives in the community.

A Legacy of Leadership:

Randy Boyd, the current president of the University of Tennessee System, has garnered accolades throughout his career for his visionary leadership and philanthropic endeavors. His professional achievements are matched by his commitment to giving back, earning recognition from diverse sectors, including government, non-profit and business organizations.

Passionate Advocate:

Jenny Boyd is a champion for causes close to her heart, including child adoption, animal welfare and fostering artistic expression in education. Her tireless efforts are evident in her

active roles with the Old City Association, the Tennessee State Art Commission, the Great Smoky Mountains Heritage Center and the Museum of Appalachia.

Investing in the Future:

Proceeds from the Spirit Award Dinner directly support the Elevate Recovery High School expansion. This crucial initiative provides a safe and nurturing environment for young adults battling addiction—empowering them to reclaim their lives through education and recovery.

Honoring
Randy & Jenny Boyd

LEADERSHIP DISCUSSES OPIOID RECOVERY

Hamilton County leadership attended the Comprehensive Opioid, Stimulant and Substance Use Program planning meeting in Washington D.C.

Gayle Lodato, Vice President, and Brad Franks, Senior Director of Greater Chattanooga, met with partners from the Hamilton County Sheriff's Office, Hamilton County Mayor's Office, Hamilton County Drug Treatment and Recovery Court and Quality Correctional Health Care to discuss efforts to identify, respond to, treat and support those impacted by illicit opioids, stimulants and other drugs.

This collaborative group is working to ensure inmates in Hamilton County Jail receive services to build resiliency and support recovery going forward.

CENTER TO EXPAND ELEVATE RECOVERY HIGH SCHOOL

Elevate Recovery High School opened in August 2021 with the capacity to serve 10 youth. Though the program has continued to evolve, adapt and expand its services, the need for recovery services for high school students remains.

Elevate is a community partnership between the McNabb Center and Knox County Schools to provide a unique program where high school students receive their individual and group intensive outpatient services and academic programming on a flexed schedule and progress toward their sobriety in a stigma-free, safe environment.

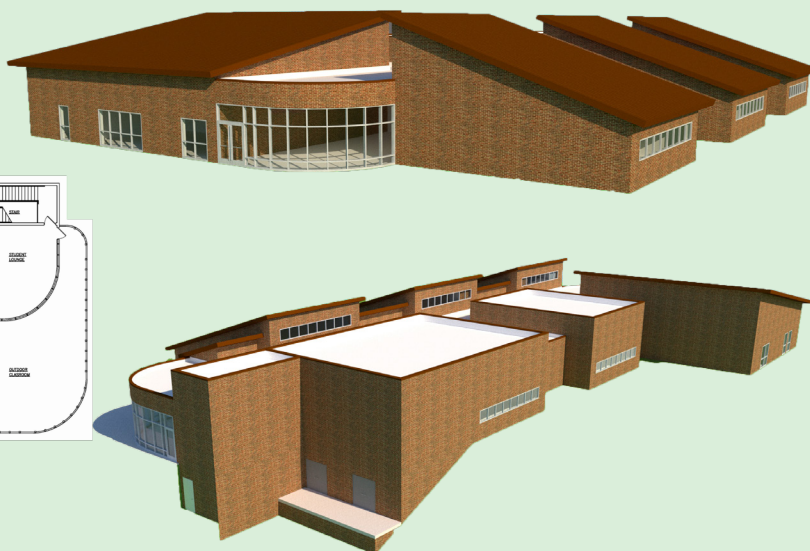

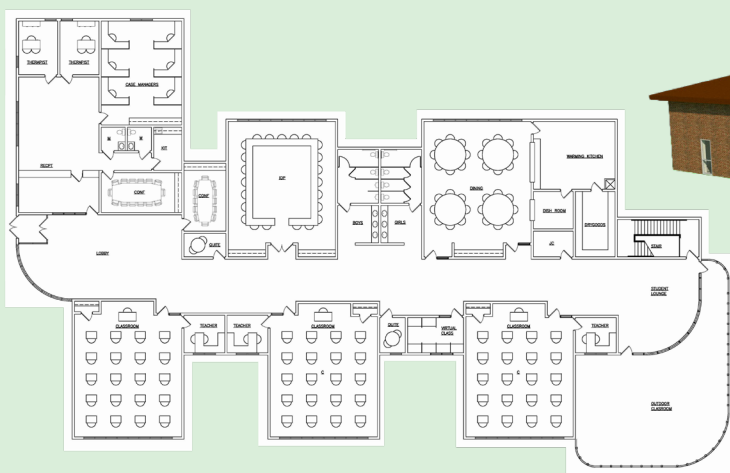

The current facilities are at capacity with 20 students, and additional space is needed to open the program up for more. Knox County Schools estimates the current demand at any given time to be up to 100 students. Out of the 452 overdose deaths in Knoxville in 2021, 32% were of those ages 0-24. 35.7% of 12th graders, 29.9% of 10th graders, and 17.6% of 8th graders reported using illicit drugs at least once in their lifetime.

The Helen Ross McNabb Foundation is launching a \$5 million capital funds campaign in support of expanding the existing Elevate Recovery High School program. Funds raised for Elevate will be restricted to construction of the school building, which will be a standalone high school consisting of three traditional classrooms, an outdoor classroom, a virtual classroom, cafeteria, group and individual treatment rooms and office spaces.

“I know when I come to Elevate that someone is always there for me to talk to and support me. Before, I never thought I would be able to graduate high school or go to college but now that I am sober, I think I can do more with my life than I ever imagined. Everyone always thought I would drop out, but here at Elevate, I have people that believe in me.”

—Carly, Elevate Student

DEAR SANTA CONTINUES TO BRING CHRISTMAS JOY TO LOCAL CHILDREN

The Dear Santa program provides holiday gifts to children in need served by the Center and their siblings. This year, thanks to the generosity of community donors, more than 1,000 wish lists were fulfilled for children in East Tennessee.

Over 2,700 toys were donated through locally sponsored toy drives and McNabb's Christmas in July toy drive, serving an additional 500 children. Several programs held holiday parties and activities for clients who would not otherwise have the opportunity or means to celebrate.

Dear Santa would not be possible without the support of not only our donors, but our volunteers. Volunteers not only shopped for wish lists at the annual Elf Shopping event, but helped organize and distribute gifts at the North Pole.

The holidays can be a difficult time for many, and the Dear Santa program helps make them a little brighter for those in need. Thank you to all of our sponsors, donors and volunteers for providing holiday joy to our clients!

Dear Santa Program Brings Joy to a Grieving Family

For many families, the holidays are filled with joy and laughter. But for one East Tennessee family, this Christmas held a heavy shadow. Just a over a year ago, the mother succumbed to a lengthy illness, leaving a hole in the lives and hearts of her husband and three children. This Christmas brought painful feelings of loss with the anniversary of her passing.

Navigating through financial hardship wasn't new to them. As a family who had immigrated to the United States, they had a limited support network nearby. Their father, a single parent now shouldering the responsibilities of both mom and dad, worked tirelessly to provide. Yet, rising costs impacted their limited income, leaving little room for Christmas cheer. Basic needs took priority over gifts for the three grieving children.

That's where the magic of human kindness stepped in. Through the generosity of others, this family was provided gifts through the Dear Santa program. Each child received gifts specially chosen for them, and the father received a brief reprieve from carrying the weight of the holiday expectations alone.

On Christmas day, the children were happy. "Our favorite Christmas ever. We love our toys. We are playing a lot." In that moment, the weight of grief momentarily lifted and was replaced by the innocent joy of receiving a special gift from someone who cared.

LOCAL OFFICERS COMPLETE CRISIS INTERVENTION TEAM TRAINING

CIT trained officers undergo 40 hours of intensive training, which helps them identify mental health resources to assist people in crisis. The training connects officers with mental health professionals and other community agencies to create a team that can provide support when a challenging situation occurs. In addition, officers learn verbal de-escalation skills and experience scenario-based training on responding to crises.

In December, the graduating class included staff from the University of Tennessee Police Department, Knoxville Police Department, Knox County Sheriff's Office, UT Medical Center, Knoxville Fire Department, Lenoir City Police Department, American Medical Response, Alcoa Police Department, Knox County Schools, United States Probation, UT Medical Center Security, Tennessee Department of Homeland Security and Veteran Affairs Police.

VOLUNTEER SPOTLIGHT

Since April of 2023, Mollie Blalock has volunteered for the Regional Intervention Program (RIP) at the McNabb Center. RIP is a 12-24 week behavior modification program for children ages 2-6 and their caregivers. The program is designed to simultaneously decrease the child's unwanted behaviors while strengthening social skills and empowering parents to set developmentally appropriate limits and consequences for their child.

Mollie's dedication to the young participants resonates in everything she does. People describe her as not only incredibly smart and responsible, but also overflowing with kindness. This inherent warmth translates into her interactions with the children, who consistently light up in her presence.

Mollie's maturity has always been beyond her years, demonstrated by her time as a trusted and beloved babysitter. Parents praise her creativity, dependability and ability to handle any situation with grace and calm. This echoes within the intervention program, where her positive presence helps create a safe and nurturing environment for all involved. Mollie is currently studying psychology at the University of Tennessee, Knoxville. She plans on attending a masters program in counseling after graduation.

"She is fabulous! She is a ray of sunshine and always willing to help out when needed. She is so pleasant, and the clients love her calming presence." —Emma Rowland, Prevention & Early Intervention Coordinator

There's no doubt that Mollie's natural talent for working with children, coupled with her ongoing studies, will pave the way for a successful and impactful career. The McNabb Center is grateful for the time and care she's poured into our program, and we know she will leave a lasting positive impact on every child she encounters. Thank you, Mollie, for your invaluable contribution!

EDUCATION AND SUPPORT FOR THE NEXT GENERATION OF SOCIAL WORKERS

The McNabb Center is one of the largest mental health providers in East Tennessee employing over 1,300 staff members. These community mental health professionals provide services to more than 45,000 individuals each year. The need for quality mental and behavioral health services continues to grow at a higher rate than individuals entering the field, and the Center is taking a proactive approach in securing the next generation of social workers

“We’re starting our recruiting efforts even earlier than we have in years past,” says Jill Barnes, vice president of human resources for the McNabb Center. “We want to introduce college students to the field of community mental health early on. There are many directions that a degree in social work can take you, and we hope to guide more students into these important roles that fill a gap in care.”

In 2023, the Center expanded efforts to connect with students through career fairs, information sessions and mentoring opportunities. Additionally, McNabb staff supervised more than 26,000 hours of student work for internships this past year. McNabb has also created scholarships and incentive programs for students who are interested in working at McNabb after graduation.

“Because of the depth and breadth of the programs and services we offer, students will find a wide variety of experiences in our internships. A great internship can really set someone up for success, and we’re doing everything we can to support students as they’re learning. We want to make sure that they know there’s a need in the community and a place for them at the McNabb Center,” says Jill Barnes.

In fiscal year 2023, McNabb Center staff supervised over 110 interns from a variety of programs including nursing, social work, counseling and family studies.
